

Design a new Outdoor Learning Area!

During the last year, we have all realised how important outdoor spaces, nature and exercise are to us all. At Priorslee Academy, we are creating a new outdoor learning area. What would you include? Draw a plan to show your amazing ideas.

Which features are you going to include?

- Play area (swings etc.)
- Sand pit
- Water play area or a mud kitchen
- Plants and flowers
- Compost bins
- Nature area/trail
- Pathways
- Benches/seating areas
- Sheds for storage
- Bird feeders
- Bird nesting boxes
- Bug hotels

Which map skills could you use?

- Draw your plan from a bird's eye view.
- Label North, East, South & West.
- Add labels to explain your plan.
- Represent the features (like seats and paths) using symbols.
- Include a key to explain what the symbols mean.
- Add sentences to your plan to explain your ideas.
